

Contents of the Toolkit

Section 1: Introduction

- Introduction to the Toolkit
- Explanation of lipoprotein apheresis, who it is intended for and its benefits
- Summary of current apheresis sites

Appendices:

- 1.1 HEART UK lipid clinic/apheresis site map
- 1.2 Lipoprotein apheresis for refractory hyperlipidaemia: clinical indications and service requirements

Section 2: Setting up and protocols for a lipoprotein apheresis service

- Practical needs, including costs, staffing, equipment, and space
- Suggestions for an engagement plan with local organisations/clinicians

Appendices:

- 2.1: Clinical Nurse Specialist in Apheresis Band 6 AFC job description
- 2.2: Clinical Nurse Specialist in Apheresis Band 7 AFC job description
- 2.3: LDL apheresis competency assessment form
- 2.4.1: Apheresis costing sheet example 1
- 2.4.2: Apheresis costing sheet example 2
- 2.5: Royal Brompton and Harefield NHS Foundation Trust Harefield Hospital LDL Apheresis Unit Protocol
- 2.6: Sample annual letter to apheresis patient's GP
- 2.7.1: Patient Group Direction (PGD) for the Clinical Nurse Specialist in Apheresis (Harefield)
- 2.7.2: Training for the Clinical Nurse Specialist regarding use of PGD (Harefield)
- 2.7.3: Viva questions for Apheresis PGD (Harefield)
- 2.8: Sample apheresis registry consent form

Section 3: Patient information and referral

- Patient information
- The care pathway to apheresis services
- Sample correspondence with other HCPs

Appendices

- 3.1: Information about lipoprotein apheresis (Harefield Hospital)
- 3.2: Patient information from the Lipid Unit at University Hospital Llandough
- 3.3: Referral pathway for lipoprotein apheresis
- 3.4: Six month review letter to GP

Section 4: Commissioning and the case for lipoprotein apheresis

- Funding for apheresis treatment
- Patient case studies to help support funding

Appendices

- 4.1: Letter to support referred patient
- 4.2: Case studies
- 4.3: Patient evaluation of the Lipoprotein Apheresis Unit at Llandough Hospital
